

HOSSEIN REZAEI

Front-end Developer

Location: Tehran | **Age:** 30 | **Marriage:** Married | **Military Status:** Completed
Email: hossein96rz@gmail.com | **LinkedIn:** [linkedin.com/in/hosseinrezaei-dev/](https://www.linkedin.com/in/hosseinrezaei-dev/) | **GitHub:** github.com/Hossein96Rz
Portfolio: hossein.vercel.app | **Tel:** [+989909416143](tel:+989909416143)

SUMMARY

Front-End Developer with **4+ years** of experience building **scalable**, high-performance web applications using **React**, **Next.js**, **TypeScript**, **JavaScript**, **HTML**, and **CSS**. Skilled in **Responsive Design**, **PWA**, **SSR**, and **Monorepo** architectures. Proficient in **leveraging AI-powered development tools** to accelerate development, improve code quality, and optimize workflows. Experienced in delivering **large-scale projects** and collaborating effectively **within cross-functional teams**.

TECHNICAL SKILLS

- Programming & Markup:** JavaScript/TypeScript, HTML, CSS
- Frameworks:** Next.js, Node.js
- Libraries and tools:** React.js, Axios, Zustand, Redux, RTK, TanStack Query, TanStack Router, Leaflet, Material UI, Shadcn UI, AntD, React Hook Form, Recharts
- CSS Technologies:** Sass, Tailwind CSS, Styled Components
- Testing:** Storybook, Jest, Vitest
- Version Controls & Platforms:** Git, GitHub, GitLab
- Design pattern and Principles:** Web Core Vitals, SEO optimization, i18n, SOLID, DRY, YAGNI
- Web technologies:** PWA, Rest API, WebSocket API, Push API, IndexedDB, Web workers
- Project Management Tools:** Vite, NX, Webpack, Docker
- Methodologies:** Responsive Design, Pixel Perfect Design, BEM, SSR strategies (SSR, SSG, ISR, PPR, CSR)
- AI-Assisted Development:** Hermes Agent, Cursor, Trae, LM Studio and Ollama (local LLM deployment)

WORK EXPERIENCE

Front-end developer at [Arman ITMD](#) (Banking Applications & Financial Service Provider) Dec 2023 – Present

Building web banking applications (mobile bank application, customer services platform, management panels, etc)

- **Mobile Bank PWA:** Contributed to the end-to-end research, development, and delivery of a secure Mobile Banking PWA. Implemented robust security measures, including continuous encryption of client-server data exchange, to enhance data protection and application reliability.
- **Customer Club Platform:** Led the research and implementation of a Monorepo architecture to enable shared layouts and reusable components across Back-Office, Front-Office, and Visitor portals, significantly improving development efficiency and accelerating team delivery.
- **EXPOINO Exhibition Platform:** Built and maintained 60+ reusable components to accelerate development and improve scalability. Migrated QR scanning flow to the frontend, reducing backend complexity and improving performance. Implemented SEO optimizations to SSR pages to enhance search visibility and page efficiency.

Front-end developer (Part-time) at [Taraz Pouyesh Co](#) (Digital Solutions Provider) Feb 2025 – Feb 2026

Maintained legacy React applications and built a multiplatform workflow platform for ERP administrators.

- **PDA data collector PWA:** Built a warehouse Data Collector web application using IndexedDB for offline data storage and synchronization, optimized for deployment and operation on PDA devices.
- **ERP platform:** Migrated from React 16.7 to React 19, refactored class components to functional components using Hooks, and replaced Redux with Zustand to improve maintainability, while optimizing overall performance by reducing unnecessary rerenders across the application.

WORK EXPERIENCE

Front-end developer at [Zanjan Food](#) (Food Delivery Platform)

July 2022 – Dec 2023

Developing the front-end of a local food delivery platform, integrating map functionalities and building front-office and back-office panels

- **Zanjan Food Backoffice:** Rebuilt the legacy back-office system using React and MUI, improving performance, maintainability, and UX. Developed a dynamic admin panel with role-based access control to streamline permissions and backend management.
- **[Zanjan food website:](#)** Enhanced website responsiveness and implemented BEM methodology with Sass to optimize project scalability.

PROJECTS

Front-end developer at [Jumpeo](#) (Active Gaming & Entertainment Company)

- **[Jumpeo website:](#)** Developed a reservation registration website using the Next.js framework for a gaming platform. Implemented various animations tailored to the site's nature and specific needs to enhance the overall user experience.
- **[Jumpeo backoffice:](#)** Developed the back-office web applications using the react 19 to support business management.

Front-end developer at [Danjeh Seeds](#) (Agricultural Technology)

- Built a bilingual cross-platform fertilizer calculation application with React 19, providing nutrient analysis and fertilizer recommendation tools for agricultural professionals.

Personal Portfolio [website](#)

- built this site using Next.js and Tailwind CSS to showcase my skills and projects. The website is fully responsive, ensuring a seamless experience across all devices. It features a dynamic theme system with both dark and light modes, and is multilingual to reach a broader audience. Every functionality on the site is tested with vitest.
